DIVE!

Bonaire is a diver's paradise with over 60 dive sites accessible from shore. Each apartment comes with a truck (the 3 bedroom units have 2 trucks!) for going to the dive sites (or shopping). The dive shop has a drive through to swap out tanks quickly, so you can maximize your diving. The island, outside the hurricane zone, is 50 miles north of Venezuela, 24 miles long and 3-5 miles wide.

Bonaire is not just for scuba diving; it is also a great place for snorkeling, kitesurfing, windsurfing, kayaking, laying on the beach, and more.
